

THE FINANCIAL AND RETENTION IMPACTS OF ADOPTING AGILE WORKING

Agile working culture is a must-have when it comes to recruiting the best employees¹.

80%

of employees say when faced with two similar employment offers, they would turn down the one that didn't offer flexible working

50%

of global employees are working outside of their main office headquarters for at least 2.5 days a week

↑ **85%**

says that productivity has increased in their business as a result of greater flexibility

65%

of businesses say flexible workspaces reduce CAPEX/OPEX spending, help manage risk and consolidate their portfolio

When agile working, employees want to participate in meetings and collaborate on projects with customers and colleagues as easily as if they were in the office. Combined with Microsoft Teams, the Surface series of touchscreen Windows hybrid tablets and notebooks gives them everything they need to communicate and collaborate whilst on the move.

MICROSOFT SURFACE AND TEAMS: A PERFECT FIT FOR AGILE WORKING

PRODUCTIVITY

Pull up documents, securely store files where team members can access and update them, and jump into calls and meetings, as easily as in-person

Record meetings and receive an automatically generated transcript

Ultra-responsive keyboards mean fast and accurate typing, and Surface Headphones help you focus. Enjoy all-day battery life for uninterrupted productivity

COLLABORATION

Post updates and insights, and share documents in Teams channels so your teammates stay connected. Brainstorm using inking with Surface Pen and whiteboarding features

Maintain regular meetings by using the 'General' channel in Teams for discussions. For bigger brainstorming sessions use the Microsoft Whiteboard app, a digital canvas for participants to create and collaborate on ideas

USER EXPERIENCE

Combining the lightweight and intuitive touchscreen technology of a tablet with the productive power of a laptop, the Surface family is built to be used on the go

Vivid PixelSense touchscreens plus premium cameras, mics and speakers bring everyone together in realistic detail

Mute all distractions with background blur during video meetings

Connect securely from any public place using LTE Advanced features for consistent 4G data speeds

BENEFITS AND COSTS OF MICROSOFT 365 POWERED SURFACE DEVICES²

UP TO \$2,720

additional net present value per user using Microsoft 365 on Surface

UP TO 11% INCREASE IN ROI

on your investment in Microsoft 365 Enterprise E5 when used on a Surface device

UP TO 76%

of enterprises say that Microsoft 365 powered Surface devices help improve employee retention

WHY CDW?

Assess

We evaluate current software, hardware and resource usage and conduct an inventory on existing licences and contracts, so you know exactly what your organisation needs to execute your internal projects, including readiness to utilise cloud services.

Design

CDW creates a long-term strategy for cloud and software management to better achieve business goals within a budget and a timeline.

Deploy

CDW has the resources and expertise to migrate, install, integrate and deploy new cloud and software solutions efficiently and effectively. We offer Jumpstart, CloudPlan®, Migration, Health Check and other services to maximise your benefits from investment in Microsoft products.

Manage

We can help you manage your Microsoft environment long-term through asset management, contract management and our CloudCare® managed service for cloud workloads.

To discuss the perfect fit for your agile working requirements with one of our team contact us
